

First Registrars & Investor Services Limited

Digitised Forms & Supporting Process Documentation Architecture

Executive Summary

This document provides a comprehensive overview of the digitised forms ecosystem, supporting shareholder process documentation, AGM administration workflows, rights issue documentation, election forms, regulatory notices, and downloadable records currently available within the [First Registrars & Investor Services Limited platform](#).

The platform combines:

- web-hosted digitised forms,
- external onboarding portals,
- downloadable process documentation,
- AGM workflows,
- investor notices,
- election processes,
- annual reports,
- and governance documentation.

The architecture demonstrates a hybrid operational model where:

- public-facing workflows originate from the corporate website,
- deeper transactional workflows are handled through the shareholder access portal,
- and supporting documents are distributed through downloadable assets and embedded workflow pages.

This document is intended for:

- strategic technology partners,
 - registrar operations stakeholders,
 - digital transformation teams,
 - compliance reviewers,
 - and enterprise integration partners.
-

1. Platform Overview

Digitised Forms Ecosystem

The current ecosystem contains:

- a focused set of digitised shareholder forms,
- a broader collection of AGM and investor process documents,
- downloadable reports and policy assets,
- and portal-driven onboarding workflows.

The majority of advanced transactional workflows are routed through the external shareholder access platform:

Platform	URL
Shareholder Access Portal	https://access.firstregistrarsnigeria.com

2. Digitised Shareholder Forms

Overview

The primary digitised forms are exposed through:

File	Purpose
Views/Home/Forms.cshtml	Public forms interface

These forms provide self-service onboarding and profile management capabilities for shareholders and investors.

3. Data Update Workflow

Purpose

The Data Update workflow enables shareholders to update:

- personal information,
 - account details,
 - contact information,
 - and registrar profile records.
-

Entry Point

Item	Value
Endpoint	https://access.firstregistrarsnigeria.com/forms/data-update
Presentation	“Apply Now” button

Business Value

This workflow supports:

- shareholder data accuracy,
 - regulatory compliance,
 - and investor record maintenance.
-

4. Change of Address Workflow

Purpose

The Change of Address workflow enables shareholders to notify the registrar of:

- residential address changes,
 - mailing address updates,
 - and official correspondence location modifications.
-

Entry Point

Item	Value
Endpoint	https://access.firstregistrarsnigeria.com/forms/change-of-address
Presentation	“Apply Now” button

Strategic Importance

This workflow supports:

- accurate investor communication,
 - regulatory mailing compliance,
 - and shareholder account integrity.
-

5. e-Dividend Enrollment Workflow

Purpose

The e-Dividend workflow enables shareholders to enroll for:

- direct electronic dividend crediting,
 - automated bank settlement,
 - and paperless dividend processing.
-

Entry Point

Item	Value
Endpoint	https://access.firstregistrarsnigeria.com/forms/e-dividend
Presentation	“Apply Now” button

Strategic Benefits

The workflow:

- eliminates physical dividend warrants,
 - accelerates payment processing,
 - and supports digital financial transformation initiatives.
-

6. Fidelity Offer / Rights Information Update Workflow

Purpose

This workflow supports:

- Fidelity rights issue processing,
 - public offer information updates,
 - and shareholder rights participation.
-

Entry Point

Item	Value
Endpoint	https://access.firstregistrarsnigeria.com/forms/fidelity-update
Current State	Present but commented out in live form list

Architectural Observation

The workflow remains embedded within the source structure but is currently disabled from public display, indicating:

- staged deployment capability,
 - campaign-specific activation,
 - or archived workflow retention.
-

7. Dividend Card Workflow

Purpose

The Dividend Card workflow supports:

- prepaid dividend card enrollment,
 - electronic dividend access,
 - and digital shareholder payment experiences.
-

Current Status

Item	Value
State	Present in source but commented out
Legacy Asset	/docs/dividend-card.pdf

Strategic Value

This workflow extends the shareholder ecosystem into:

- digital payment services,
 - prepaid financial products,
 - and electronic fund accessibility.
-

8. AGM Notices & Proxy Administration Workflows

Overview

The platform includes multiple AGM and EGM support workflows for publicly listed companies and shareholder voting processes.

8.1 Nigerian Breweries AGM / EGM Workflows

Available Assets

`_NBAGM.cshtml`

Supports:

- EGM notices,
 - meeting circulars,
 - proxy forms,
 - and Memorandum & Articles references.
-

`_NBAGM24.cshtml`

Supports:

- AGM notices,
 - annual report downloads,
 - and proxy workflows.
-

8.2 Presco AGM Workflow

`_PrescoAgm24.cshtml`

Supports:

- AGM notices,
- shareholder proxy forms,

- and annual meeting participation.
-

8.3 Friesland AGM Workflow

`_FrieslandAGM.cshtml`

Supports:

- annual reports,
 - and proxy participation documentation.
-

Strategic Importance

These workflows support:

- shareholder governance,
 - AGM participation,
 - proxy voting,
 - and regulatory compliance.
-

9. Rights Issue & Public Offer Workflows

Overview

The platform contains dedicated investor participation workflows for:

- rights issues,
 - public offers,
 - and capital raising activities.
-

9.1 ABC Rights Circular Workflow

`_ABCOffer.cshtml`

Provides:

- rights circular PDFs,
- and rights form links.

9.2 Fidelity Offer Workflow

`_FidelityOffer24.cshtml`

Supports:

- public offer documentation,
- and rights issue workflows.

9.3 Nigerian Breweries Rights Workflow

`_NBRights24.cshtml`

Provides:

- rights issue notices,
- and downloadable participation forms.

Strategic Role

These workflows support:

- investor capital participation,
- corporate actions,
- and shareholder communication processes.

10. Share-for-Cash Election Workflow

Overview

The Share-for-Cash workflow supports shareholder election decisions related to dividend preferences.

Platform Component

File	Purpose
<code>_NBShareForCash.cshtml</code>	Share election workflow

Workflow Coverage

The workflow includes:

- explanatory documentation,
 - election forms,
 - and shareholder selection processing.
-

Business Value

This process supports:

- shareholder flexibility,
 - dividend election management,
 - and alternative shareholder benefit models.
-

11. Mandate Form Workflow

Overview

The mandate workflow supports digital-assisted mandate processing and email-based registrar handoff.

Platform Component

File	Purpose
_DeapAgm244.cshtml	Mandate processing

Workflow Process

1. User completes mandate form
 2. System generates mandate code
 3. Code is submitted via email
 4. Registrar processes mandate manually
-

Workflow Characteristics

The workflow demonstrates:

- hybrid digital/manual processing,
 - assisted onboarding,
 - and email-integrated registrar operations.
-

12. Annual Reports & Downloadable Records

Overview

The platform includes searchable annual report infrastructure and downloadable investor records.

Components

Component	Purpose
Reports.cshtml	Searchable report listing
/download-report/{filename}	Dynamic report download

Business Importance

The reporting platform supports:

- investor transparency,
 - historical financial access,
 - and regulatory disclosure obligations.
-

13. Policy & Governance Documentation

Overview

The platform includes governance and compliance documentation supporting operational transparency and regulatory obligations.

13.1 Privacy Policy

`Privacy.cshtml`

Includes:

- privacy notices,
 - data retention principles,
 - and cookie policy disclosures.
-

13.2 Whistleblowing Policy

`Whistleblowing.cshtml`

Includes:

- whistleblowing guidance,
 - hotline information,
 - and reporting expectations.
-

13.3 Terms & Conditions

`Terms.cshtml`

Defines:

- platform usage terms,
 - legal obligations,
 - and service conditions.
-

Strategic Importance

These assets strengthen:

- governance compliance,
 - data protection transparency,
 - and operational accountability.
-

14. Process Flow Architecture

Standard Workflow Pattern

The digitised forms ecosystem follows a structured process flow.

Typical User Journey

1. User opens public forms or notice page
2. User accesses hosted form or downloadable asset
3. User completes:
 - digital workflow,
 - or manual PDF form
4. Workflow routes through:
 - email submission,
 - portal onboarding,
 - or registrar processing
5. Confirmation occurs through:
 - email,
 - SMS,
 - or downloadable acknowledgement

15. Asset Storage & Content Architecture

Website Page Locations

Component	Location
Forms	Views/Home/Forms.cshtml
Reports	Views/Home/Reports.cshtml
Privacy	Views/Home/Privacy.cshtml
Whistleblowing	Views/Home/Whistleblowing.cshtml
Terms	Views/Home/Terms.cshtml

Shared Document Components

Component	Purpose
_NBAGM.cshtml	AGM workflows
_NBAGM24.cshtml	AGM notices

Component	Purpose
_PrescoAgm24.cshtml	Presco AGM
_NBShareForCash.cshtml	Share election
_ABCOffer.cshtml	Rights circular
_FidelityOffer24.cshtml	Public offer
_DeapAgm244.cshtml	Mandate workflow
_FrieslandAGM.cshtml	AGM assets
_NBRights24.cshtml	Rights issue

Static Storage Locations

Directory	Purpose
wwwroot/docs	Documents & PDFs
wwwroot/reports	Annual reports
wwwroot/img	Visual assets

16. Architectural Observations

Key Platform Characteristics

Portal-Driven Processing

The platform intentionally routes complex workflows through the external shareholder access portal.

Hybrid Workflow Architecture

The ecosystem combines:

- digital onboarding,
- downloadable forms,
- and manual registrar processing.

Campaign-Based Workflow Enablement

Several workflows exist in source code but remain disabled from public display, allowing:

- selective campaign activation,
- phased rollout,
- and reusable workflow templates.

Document-Centric Operations

The ecosystem heavily leverages:

- downloadable PDFs,
 - notices,
 - circulars,
 - and investor communication assets.
-

17. Future Enhancement Opportunities

Recommended Modernization Areas

Full Digital Workflow Automation

- end-to-end online submissions,
- electronic signatures,
- automated validation,
- and workflow tracking.

Document Management System

- centralized document repository,
- version control,
- and workflow governance.

Shareholder Self-Service Expansion

- real-time form tracking,
- automated approvals,
- and onboarding dashboards.

OCR & Smart Form Processing

- scanned document extraction,
- auto-validation,
- and intelligent onboarding automation.

Workflow Analytics

- submission tracking,
 - shareholder engagement analytics,
 - and process monitoring.
-

18. Strategic Technology Positioning

The forms and document ecosystem demonstrates a mature operational registrar workflow architecture capable of supporting:

- shareholder administration,
- AGM governance,
- rights issue processing,
- dividend workflows,
- and regulatory communication.

The architecture provides a strong foundation for future:

- fintech integrations,
- digital registrar modernization,
- workflow automation,
- and enterprise document governance initiatives.

19. Conclusion

The First Registrars digitised forms ecosystem combines:

- portal-driven workflows,
- downloadable process documentation,
- investor communication assets,
- AGM administration,
- and shareholder onboarding processes.

Together, these systems create a scalable and operationally mature registrar workflow environment supporting:

- investor engagement,
- governance compliance,
- digital onboarding,
- and registrar operational efficiency.

The architecture is well-positioned for continued digital transformation and future automation initiatives.

20. Forms & Workflow Summary

Workflow	Primary Purpose
Data Update	Shareholder profile updates

Workflow	Primary Purpose
Change of Address	Address modification
e-Dividend	Dividend enrollment
Fidelity Rights Workflow	Rights issue participation
Dividend Card	Prepaid dividend payments
AGM Notices & Proxy Forms	Shareholder governance
Rights Circulars	Capital participation
Share-for-Cash Election	Dividend preference election
Mandate Workflow	Mandate processing
Annual Reports	Investor disclosures
Policy Documents	Governance & compliance
